

**Group Members  
International**

**Changing The World Through The Voice Of  
Community**

### **Company Overview**

Group Members International LLC (GMI) is a privately funded marketing/social media company based in Connecticut and was founded by John A. Monteleone. Mr. Monteleone became an early pioneer in social networking having worked as Chief Marketing Officer for eUniverse after it purchased CD Universe of Wallingford, CT. As a marketing company, GMI takes a business approach to social networking and adds the needed business mindset and values to make niche communities profitable using multiple revenue generating program which focusing on useability, scalability of traffic, connections, and content/media storage.

GMI is currently seeking seed funding.

### **Company Background**

In July of 2006, GroupMembersInternational (GMI) developed a social networking platform utilizing customized open source software, components, and tools, to create unique niche social networking communities. This platform is based on tested and proven secure core open source technology architectures that incorporate varied and robust functionality.

### **Mission -- To Change The World Through The Voice Of Community**

To use social networking as platform to bring change to our communities, country and society. To enable the masses the opportunity to have a voice and be heard so the people, not governments, can make a new and better world for ourselves and future generations. Social media has redefined how we communicate to each other and how we as individuals relate to the organizations that serve us. Social networks are not so much about the specific components of social media, but about what happens around and because of social media. Social media provides a platform for working together for common and individual interests within various contexts.
